Welcome to the planet Mobius - - a world beyond what you know from the SEGA games! Where Silver the Hedgehog and the Secret Freedom Fighters race against time to save the unwitting citizens of New Mobotropolis from evil!

SONIC UNIVERSE™

PREVIOUSLY...

The city of New Mobotropolis is under SIEGE!

Sonic the Hedgehog's home city continues to reel following the devastating attacks of Dr. Eggman. These attacks have lead to the destruction of the city's heroes, the Freedom Fighters.

The city has also been attacked from within, as the evil Wizard Ixis Naugus and his apprentice Geoffrey St. John have usurped the crown of Acorn, using their dark magic to turn public opinion in their favor. But in the shadows a new team of Secret Freedom Fighters have formed to put an end to Naugus's rule!

After battling both Geoffrey and Naugus, the Secret Freedom Fighters found themselves evenly matched with these forces of evil. Evenly matched, that is, until Silver was able to convince team leader Elias Acorn that they might be able to reason with Geoffrey St. John, instead of battling him head on.

Silver's gamble paid off, and Geoffrey revealed to our heroes the true, terrifying depths of Naugus's plan – to take control of the Council of Acorns' minds as they ratify the Kingdom's new constitution! If Naugus was able to control the law of the land, he would be unstoppable.

The Secret Freedom Fighters are NOT about to let that happen...

Dear 'My Sonic Universe,'
Hi, I'm Caryn, resident Sonic the Hedgehog nerd.
I simply love the characters, the story, the complexity, the drama, the action and, well, everything. Most of my friends don't seem to understand my obsession, but what I can't understand is why most girls my age are unaware of almost all things Sonic. I guess they don't have brothers that like to talk about that kind of thing.

I've been working on some stories of my own, and I was wondering what kind of experience or education would make me more likely to become a writer for the Sonic the Hedgehog comics about two years in the future? I want in. :-)

The best advice I can give aspiring writers is to study story structure and pacing as much as possible, and write as much as you can to hone your craft. If you have a favorite writer, figure out what about that writing is compelling to you, and apply that to your own work. There's a lot of competition out there, but the truth is, if writing is your passion there's no reason you can't someday break into the business with enough practice and dedication. As for writing Sonic, well, I can't guarantee that -- Ian's got these books plotted out for the next 70 years (give or take a decade)!

SEE Y'ALL NEXT MONTH!
